

Reading List for Year 5

This list is only a **guide** and a **starting point**.

There are lots of ways to find new and exciting books for your children to read:

Go and browse in bookshops. Your children can look at the cover, look at the blurb and have a look inside to see if it is going to be the right book for them.

Go and browse in libraries. This is the best (and cheapest) way to get new books. Ask the librarians for recommendations.

Speak to other parents and children. Many of the books on this list have been recommended by pupils in the school.

Speak to teachers. If you are still struggling to find books that will suit your child then speak to the teachers.

Use the internet. There are lots of websites that have suggestions for young readers. One website which is particularly helpful is www.whonextguide.com This website allows you to type in the name of an author and then it gives you suggestions about who you can read next.

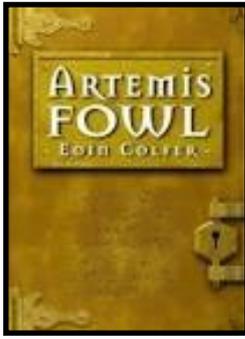

This list has not included any **poetry** or **non-fiction**.

It is not hard to find age-appropriate **poetry** in shops and libraries. Look for an anthology that appeals to your child. Nonsense poems and funny poems can often be a good place to start.

In terms of non-fiction then it is often good to start with newspapers, like **First News**. They can also look for magazines and books about **topics that interest them**. There are good reference sections in bookshops and libraries.

Classics: There are lots of children's classics and these are easy to find, e.g. 'The Railway Children' and 'Alices's Adventures in Wonderland'. In terms of more adult classics, there are some really good abridged versions by **Usborne** and **Real Reads**. We have many of these in the library at school.

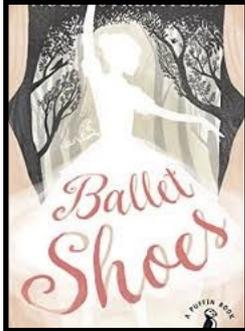

Graphic novels and **picture books** should not be ignored. These are often a good way into difficult subject matters and a great resource for looking at inference. They can read **Manga Shakespeare** or an **Agatha Christie**
