

Activities at Home

Project: ‘The Greatest Journey’

Dear Parents,

The activity for week: 5

beginning: 23rd May

is: ‘Challenging Journeys’

The activity we will be covering involves:

- Talking and learning about the way children live in different countries.
 - Developing knowledge and understanding of the world around us.
 - Developing self-identity and awareness of others.
 - Learning new vocabulary.
 - Developing listening skills.
-

Our activity includes:

We will introduce the activity by having a discussion about the many different ways we all go to school.

Watch a YouTube video of some children in other parts of the world on their journey to school. Talk about it and ask the children open-ended questions, encouraging them to compare their own journeys to school to the ones we have watched.

Next we will pretend to live somewhere else in the world trying to go to school through a very challenging route. For this activity, the playground will be already set up for our challenging journey going under, through, over, balancing, climbing, running, etc., until we finally get to school.

You might wish to help your child to explore this topic at home or when you are out and about. Please feel free to approach the teachers for further explanations.

Our suggest activities are:

Watch some of these YouTube videos (Dangerous journeys to school) with your child and talk about the different ways you go to school; bus, car, walking, scooter, bicycle, etc. and why these journeys can be challenging and dangerous too and what precautions you take to be safe during your journey to school by wearing a helmet, a seat belt, looking at the traffic lights, watching out for cars and bicycles when walking, etc.
