# Protecting the devices

Apps, smartphones and tablets

Games consoles

Home broadband

# Three to seven

Safe searching

YouTube issues

Knowing when and who to tell

# Eight to thirteen

YouTube issues!

Online contact and streaming

What they're (and you're) sharing

# Protecting the devices

Set the parental safeguards *before* they get near it!

# Setting parental safeguards on your child's devices

If you're viewing this on a screen, tap (or click) the appropriate icon below.

If you're looking at this on paper, point your phone's camera at the appropriate QR code and tap the link that appears.

Follow the instructions on the website exactly, in particular setting the age of the child.

We recommend you set the device not to allow *any* apps or games to be installed without your permission.

Protect your settings with a strong password that is not known to the child.

SEE APP MINIMUM AGE GUIDE

Getting to grips with apps children

# WhatsApp

- 16+ mainly because you can't prevent strangers contacting your child
- Your child's number is visible to all group members
- End-to-end encrypted
- Disappearing messages feature may present a safeguarding and bullying risk

# WhatsApp

# The *important* phone contract

- This is **our** phone, not yours. We're letting you use it because we trust you to be sensible.
- If we call you, you **MUST** answer or call us straight back if you miss the call.
- We will know your phone unlock code and you must tell us if you change it.
- We may check the phone at any time but we will respect your privacy too.
- You will not use the phone at mealtimes or after X pm (may be different in holidays).
- If you receive anything suspicious or worrying, tell us and we will sort it out together.

# Protecting the devices

Set the parental safeguards before they get near it!

Heed the minimum age ratings on video games and apps.

Be guided by the age ratings for other apps and games.

Install web filtering but don't rely on the network provider alone.

## Jessie and Friends

4–5 years

5–6 years

6–7 years

[thinkuknow.co.uk](http://thinkuknow.co.uk)

# YouTube: three to thirteen

Very young ones: look at YouTube for Kids

Young ones: enable restricted mode and password protect the setting

While you're at it, switch off autoplay

If they want their own YouTube channel, technically they must be over 13

If nevertheless you're happy for them to have one, sign up in your name

# Protecting themselves: TikTok

**TikTok**

- More than 1 in 8 of the world's population is on TikTok
- 13+ of course
- Almost half of 8–12s were on it in 2020 (Ofcom)
- Fancy a "Rainbow Puke" or a "Drama Queen"?
- Gifting has been misused to coerce young people into doing things they otherwise wouldn't do

# Protecting themselves: TikTok

**TikTok**

- New parental restrictions
  - Restrict who can see their profile
  - See what videos they're liking
  - Restrict what they can search for
- Useless if you don't control the account or there is another one

VR CHAT

# Making online games safer

Try not to demonise a particular game or app.

Most people mean Fortnite Battle Royale (free)

100 players; aim is to be the last one standing

No blood or gore; “killed” players disappear

Considerable pressure to make in-app purchases

If you have concerns about bad language,  
don't let them use a headset

Check settings (who they can play against etc.)

# *Lied about their birthday?*

## *They might have put themselves at risk.*

If children in your care are turning 13, talk to them about each of these apps. If they're on it, they've lied about their age and the app will think they're older. Turn the clock back, change their virtual age to their real age and make them safer online.

### **Snapchat**

**13+**

At least 13 years old

- Tap your Bitmoji at the top left of the screen
- Tap the settings cog
- Correct your birthday and select 'Okay' to confirm

### **Yubo**

**13+**

At least 13 years old

- Tap profile icon at top right of the screen
- Tap 'Edit'
- Tap 'Birthdate'
- Correct your birthday and select save

### **YouTube**

**13+**

At least 13 years old

### **TikTok**

**13+**

At least 13 years old

# UK Chief Medical Officers' advice for parents and carers on Children and Young People's screen and social media use

Technology can be a wonderful thing but too much time sitting down or using mobile devices can get in the way of important, healthy activities. Here are some tips for balancing screen use with healthy living.

## Sleep matters

Getting enough, good quality sleep is very important. Leave phones outside the bedroom when it is bedtime.

## Sharing sensibly

Talk about sharing photos and information online and how photos and words are sometimes manipulated. Parents and carers should never assume that children are happy for their photos to be shared. For everyone – when in doubt, don't upload!

## Education matters

Make sure you and your children are aware of, and abide by, their school's policy on screen time.

## Keep moving!

Everyone should take a break after a couple of hours sitting or lying down using a screen. It's good to get up and move about a bit. #sitlessmovemore

## Safety when out and about

Advise children to put their screens away while crossing the road or doing an activity that needs their full attention.

## Talking helps

Talk with children about using screens and what they are watching. A change in behaviour can be a sign they are distressed – make sure they know they can always speak to you or another responsible adult if they feel uncomfortable with screen or social media use.

## Family time together

Screen-free meal times are a good idea – you can enjoy face-to-face conversation, with adults giving their full attention to children.

## Use helpful phone features

Some devices and platforms have special features – try using these features to keep track of how much time you (and with their permission, your children) spend looking at screens or on social media.

# Protecting themselves: eight to thirteen

Do **you** always know what's being shared?

For many children, you can easily discover online

Their full name

Their date of birth

Look at their relatives' social media and the chances are you'll find

The name of their first school

Their favourite teacher

Their (first) pet's name

Their mother's maiden name

## Sharenting

## We're here to help everyone report harmful content online

If you've experienced or witnessed harm online we can help. Report Harmful Content can help you to report harmful content online by providing up to date information on community standards and direct links to the correct reporting facilities across multiple platforms

Background  
Information

FAQs

# In summary

Try not to demonise a particular game or app.

Emphasise behaviour for staying safer.

Set the parental safeguards on their devices – and check their app settings.

Make sure they're adequately supervised when online.

Try not to go over the top if a mishap occurs. If they think you will, they won't tell you if something is worrying them.

Model good behaviour – build their digital resilience.

Make sure they know what to do if they get that “uh-oh” feeling.

# Digital Resilience Toolkit

## Advice to help children become more resilient online

Just like teaching a child to ride a bike or cross the road, digital resilience is another way to highlight the need to help children cope with whatever the online world throws at them.

Together with our expert ambassador Dr. Linda Papadopoulos, we've created a number of age-specific resources to get you started.

# Thanks for listening.
